

This year 110 Combat Wing celebrates 100 years of Larissa Air Base in service of the Hellenic Air Force. For that reason a group of inspired people tried their best to specially format two airplanes, one **F-16 Blk 52+** and an **RF-4E Phantom II**, in a very constructive way.

Congradulations go to **George Athanasiadis**, **Dimos Anagnostakis**, **Stelios Kontopoulos** and **Geroge Psarras** for their contribution to the Hellnic Air Force.

Take a look now to some photos from the setup procedure. We would like to truly thank our devoted friend, contributor and AF.gr ambassador **Kostas Alkousis** for the great photos you will see below:
