A quality photo-book has been published for the celebration of 363 Squadron's 40 Years Anniversary. It is a 64 color pages soft-covered book containing 160 photos (about 30 of them are full page) and many historical information in greek language from establishment of the 363 Squadron till now. Is for sure a must have for Hellenic Air Force admirers and a rather rare book since the only one to be published about greek Buckeyes.

We would like to congratulate the members of "[Ikaros](#)" Society that participated in the photo-shooting, design and production of the official 363 Squadron photo-book and especially: Konstantinos Ntasios, Konstantinos Georgikopoulos, Panagiotis Panagiotopoulos, Dionisis Theristopoulos & Charalampos Giakoumis.
